Reviews

It is one of the best books. Indeed, it really is playful, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

MILES AND MILES OF REPTILES

HarperCollins Publishers. Paperback. Book Condition: new. BRAND NEW, Miles and Miles of Reptiles, Dr. Seuss, There are thousands of reptiles. I'll show some to you. Your mother will not mind at all if I do. Join the Cat in the Hat as he introduces beginning readers to reptiles. This title and others form part of a series of books that takes an off-beat look at nature and natural sciences through a fun combination of Seussian rhymes and zany illustrations. Aimed at early readers - from four to seven year olds - the books are designed to bridge the gap between concept books written for preschoolers and more formal non fiction titles that require fluent reading skills. By presenting the facts in a lively and rhythmic manner, they provide the critical foundation upon which complex facts and ideas can eventually be built.
