LINCOM, 2001. Softcover. Book Condition: Neu. Dust Jacket Condition: Gut. 2. Auflage. Ge'ez, a South-Semitic language, is the classical tongue of Ethiopia. Extinct as a spoken language since the 10th century, it is still used by the Ethiopian church, and still influencing the modern languages of Ethiopia. In this regard it's comparable to the Classical tongues of Europe, Latin and Greek. After Egyptian and Meroitic it is one of the oldest attested languages of Africa. The present volume contains: A short outline of the problems connected with Ge'ez phonology; the basic structures of the morphology, with special reference to the verb; the principles of Ge'ez syntax; a sample text, thoroughly analyzed in interlinear translations. Comparative charts of the nomenclature of the verbal stems, a chapter on research tools and literature and an ample bibliography should function as a helpful guide to Ge'ez-studies for the non-specialist and facilitate reference. The second revised and enlarged edition takes account of new findings, the bibliography is updated and more examples are given. ISBN 3895866040. Languages of the World/Materials 01. 60pp. 1995.
